

Enhanced Visualization with Modern Color Scheme

NLP Course - Week 4

Modern Tech Palette

- Primary: Deep Blue #2E4057
- Secondary: Vibrant Teal #048A81
- Accent: Warm Orange #F18F01
- Neutral: Soft Gray #7D8491

Benefits:

- High contrast for readability
- Professional appearance
- Colorblind-friendly combinations
- Reduces eye strain

Alternative Palettes

Educational Warm:

- Navy #1E3A8A
- Sky Blue #60A5FA
- Coral #FB7185

Nature Professional:

- Forest Green #14532D
- Teal #0D9488
- Amber #F59E0B

New Chart: Attention Heatmap

New Chart: Model Complexity Comparison

Comprehensive comparison of model architectures across multiple dimensions

New Chart: Beam Search Visualization

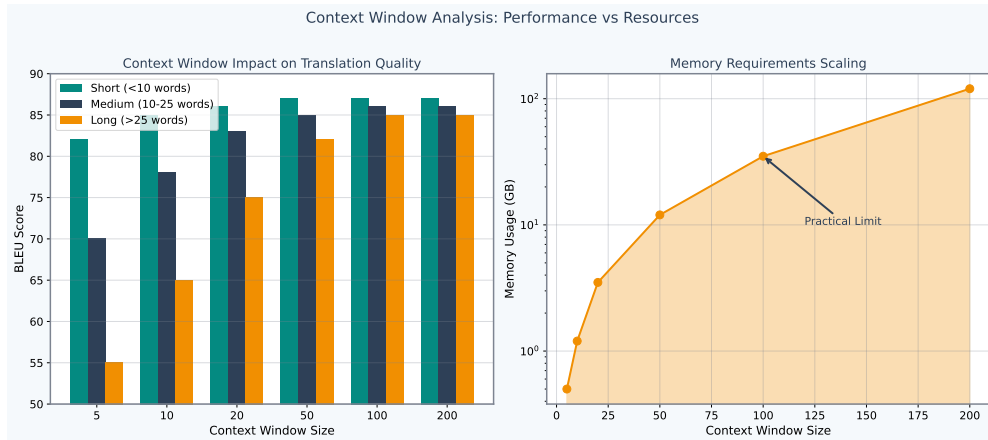

Interactive tree structure showing beam search paths and scores

New Chart: Training Dynamics Dashboard

Seq2Seq Training Dynamics Dashboard

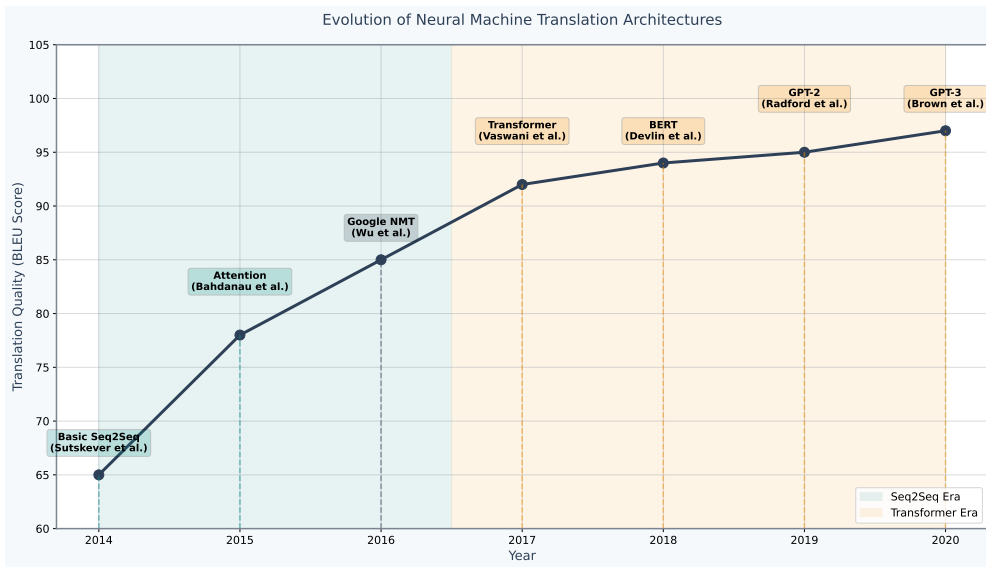

New Chart: Context Window Analysis

Performance vs resource trade-offs for different context sizes

New Chart: Architecture Evolution Timeline

Historical progression of NMT architectures and their performance

Suggested Additions:

- ① **Vocabulary Distribution**
 - Word frequency plots
 - OOV handling visualization
- ② **Error Analysis**
 - Common translation errors
 - Error type distribution
- ③ **Computational Efficiency**
 - FLOPs comparison
 - Inference time analysis

Interactive Elements:

- ① **Gradient Flow**
 - Backprop visualization
 - Gradient magnitude plots
- ② **Attention Patterns**
 - Different attention types
 - Head specialization
- ③ **Decoding Strategies**
 - Sampling distributions
 - Temperature effects

Total: 6 new charts added + 6 more opportunities
